

As missionaries, sharing "Living Water" is our most important task. As we work, we share the Gospel of Jesus Christ and form fellowships that celebrate life and the godness of God!

QUICK FACTS ABOUT WATER FOR ALL.

1. We share the Gospel as we work and also start churches and Bible studies. Several Churches have been started.
2. Our wells cost between \$50 and \$100 when drilled in "club" fashion. Wells drilled with normal truck mounted rigs usually cost thousands of dollars each.
3. Over 2,000 wells have been drilled so far in 8 countries! Thousands of people now have clean water. Plus, we teach families to build and maintain their own pumps. We also design low cost windmills and farming tools to help poor families.
4. We also sponsor HOPE Bolivia. This village women's group hand paints scarves to raise family incomes.

Terry Waller, 3214 Stanford, San Angelo Texas 76904. Updated November 2006.

Ask to speak with the Pastor, Taylor Sandlin.

Or visit www.southlandbc.org

5. We need your help! Water For All is a faith based ministry sponsored by compassionate Christians like you. Kathy and I have ministered in Bolivia for the past 16 years. We have 5 children. Three were adopted in Bolivia. We have lived and worked with the poor in Haiti, Africa, and Mexico. We served with the International Mission Board of the SBC for 17 years.

6. Our partner, Southland Baptist Church of San Angelo, Texas* receives donations for us and approves work plans, budgets and audits expenses. **Tax deductible gifts can be sent to, Southland Baptist Church 4300 Meadow Creek Trail. San Angelo, TX. 76904.** If you feel led to help, checks can be made to "Southland Baptist Church". Note "WFA, Water Well Ministry" on your check. Your gift will only be used for our work and support.

Transforming Lives and
Communities with Water and the
Good News of Jesus.**

Sharing Water and More
Our work is spreading! We have taught our drilling process to many others with wells now drilled in Bolivia, Sri Lanka, Nicaragua, Cameroon, Kenya, Ethiopia, Mexico, and Argentina. 2000 plus wells drilled so far!

WFA is a partnership ministry of Terry and Kathy Waller; Southland Baptist of San Angelo Tx and World Concern Bolivia., with help from Hendricks Ave of Jacksonville FL, Trinity Baptist of San Antonio Tx., University Baptist Arlington Tx., , BGCT Texas Partnerships and other caring individuals and churches. We need your help! We are supported solely through designated offerings and gifts.

WATER FOR ALL/AGUA PARA TODOS

Hello. Allow me to introduce you to an exciting, holistic, and transformational Christian Ministry. My name is Terry Waller and my family and I work in Bolivia as faith missionaries with extremely poor rural families who struggle everyday simply to grow enough food to live and have enough water to drink. Many families drink water from open ponds and even ditches.

In response to this we designed an extremely low cost manual well drilling system that allows poor families to drill their own personal family wells and build and maintain their own pumps. Over 2,000 wells have been drilled impacting thousands of lives. Our average

well (including the pump) cost is between \$50 and \$100. This is for a well between 75ft.-175ft. deep. (we go sometimes to 200ft all by hand!)

We help very poor families form what we call “water clubs”. The families work together and elect a master driller from among themselves. Then we lend one of our drilling rigs. After that we teach the families to drill their own wells and make their own pumps. We also lend well casing material if necessary.

Everyone pitches in. The kids help haul water (used in the drilling process) and the wives cook meals. It is really a great community affair. Everyone is very proud after drilling their “own” well. The moms are usually happiest as now what they thought was an unattainable dream comes true for them, their very own family well! Now they don’t have to haul water from far away. Clean, abundant water is a blessing beyond description.

Our Most Important Work Is Sharing the Gospel and Starting Churches.

Sharing “Living Water” is needed to minister to the “whole man”. Above a church we started is dedicating a new baby to God.

As we work and make friends, we share the Biblical story of redemption through faith in Jesus. Often we use a listener sensitive, narrative “story telling” format that oral cultures enjoy and remember. Kathy also helps very poor village women raise incomes by teaching them to hand paint scarves and other handicrafts . Families and neighbors loving and caring for each another is the net result!

At left is one of our “family wells” serving a whole village. Dozens of children drink clean water everyday from this well. At far left families drill a well by hand. One of 2,000+ drilled so far. Many more are needed. Please pray for us and may God bless you! T. W.
